- AI

AI + school collab

- Students have had difficulties in learning since covid hit
- Students have appeared to prepare at a lower level rate
- Students have not been able to perform well making then more clever how to cheat
- The use of chatgpt has made it so that students do not retain information

Introducing Glob, a teacher's very own GENAI assistant

Virtual Reality Learning for the Classroom!

Personalized courses and endless access to the community pool of knowledge provided by anyone, anywhere, & anytime!
